Farmers Becoming Interested in Chemical Fertilizers

The illustrated lecture held on Tuesday afternoon in the Phillips Hall under the auspices of the Consolidated Mining and Smelting Co. of Canada Ltd., was a decided success and resulted in a keen interest being developed by many in the use of chemical fertilizers. The slides shown pictured the astounding results obtained by farmers in every part of the West. They portrayed the advantages obtained by the use of phosphatic fertilizers through earlier maturity of grain, weed-control, increase in yield, stronger straw etc. In fighting the cut worm and wire worm menace, splendid results have also been obtained. Several attachments for drills will come into the the district as well as part of a carload of Ammonium Phosphate and Triple Superphosphate as a result of the meeting. Three carloads of fertilizer are being unloaded in Gleichen. These fertilizers are available in 100 lb. lots as well as 5 lb. cartons for garden use and will be distributed through W. Sutemeister, local dealer, resident at Gleichen, who will gladly reply to all enquiries directed to him.

While admitting that there had been a slowing down of the ratio of increase of population as compared with previous figures, he said that the record for the ten-year period from 1920-30 showed the yearly increase was 1,625,000.

That meant, he said, that in the year 1930 there were 16,250,000 more people to be fed than in 1920, and based on the estimates of Sanford Evans, Winnipeg, of two and a half bushels of wheat annual per capita consumption in 1930, the world required 40,625,000 bushels of wheat more than it did in 1920.

Demand Will Soon Overtake Supply

Although the wheat acreage in Alberta has grown from 4,885,000 to approximately 8,000,000 during the past ten years and the general trend of exporting countries was a considerable increase of acreage over population up to 1920, yet during the past two years the world population situation has shown decided signs of being reversed, according to a statement made by L. D. Nesbitt of the Alberta Wheat Pool, recently.

Mr. Nesbitt points out for 33 years up until 1930 the world's wheat acreage on the average increased between 2,000,000 and 3,000,000 acres per year, but that the trend during the past two years has been the other way the decrease in acreage in the major wheat exporting countries for 1931 alone having been 12,000,000 acres.

If this continued, Mr. Nesbitt asserts, it would not take very long before the demand for wheat overtook the supply.

Easter Sunday Celebrated by a United Service

Easter services were conducted in Arrowwood last Sunday morning in a true Christian spirit when the Brethren and United Church congregations met for a union service in the former's church. There was a very good turnout, the building being taxed to capacity. The floral decorations (the work of Mrs. R. L. Culp) were beautiful and lent a real Easter atmosphere to the service. Mr. Q. Hollenberg acted as chairman and the Revs. J. S. Culp, V. M. Gilbert, and J. H. Brubaker took part. The choir of the United and Brethren were both present and assisted in special music. A number of items by the boys and girls of the Brethren Church were much enjoyed.

Local and Personal

The Ladies' Guild are staging their play 'Clubbing a Husband' at Cluny Friday night under auspices of the Guild there.

Miss I MacLeod left for her home at Innisfail Friday morning, where she will spend the Easter holidays.

Miss M. Mitchell is again at her desk in the Bank after a three-week holiday spent at Calgary and Vulcan.

Mr. and Mrs. Sawyer and family left on Tuesday for Carlsland, where they will make their future home.

Mrs. G. F. Kemper Entertains at Bridge

Mrs. G. F. Kemper was a charming hostess to a number of her friends this afternoon. Four tables of bridge were in play. Mrs. G. Smith carried away first prize, Mrs. Dahl consolation and Mrs. R. Fonger average score. Following this an exceptionally dainty lunch was served, the preparation of which was a work of art and reflected great credit on Mrs. Kemper.

Farewell Party to W. McKinley

On Wednesday evening a farewell party was held at Horning's Hotel in honor of W. McKinley, who will leave shortly for the Peace River district. A very enjoyable evening was spent in games and dancing. A delicious lunch was served. When the young people left for their homes they one and all wished "Bill" the best of success in his new home and expressed regrets at losing one of their number.

Do minion Government Wheat Bonus

Up until the end of 1931 the Dominion Government had paid out \$6,762,813 as a wheat bonus to prairie wheat growers. Five cents a bushel bonus was paid on 135,000,000 bushels delivered.

Buffalo Hill News

A sale will be held at Frank Lent's farm (near Union Jack School) on Monday 4th, at 1 p.m. Lunch will be served.

Hussar Suffered \$100,000 Fire Early Tuesday

Hussar, March 29.—Damage estimated at close to \$100,000 was caused when fire of undetermined origin swept the main street of this town early Tuesday morning, destroying three stores, a cafe, the Hussar hotel and the Masonic lodge.

The buildings destroyed included: the Stiles drug store; Clifgard general store; Janse grocery, operated by R. E. Snellings; Liberty Cafe; Masonic lodge and the hotel. The loss is partly covered by insurance.

The blaze was discovered at 2 o'clock by Mrs. A. A. Clifgard, who resided with her family above the large general store operated by her husband, one of the pioneers of the district. Mrs. Clifgard awoke to see a glare of flames from the Stiles drug store, where the fire apparently originated.

Townpeople quickly gathered and with fire extinguishers and buckets attempted to check the flames. Their efforts were unavailing and the fire spread quickly from drug store to the Janse grocery and then to the Clifgard store.

Former Milo Resident Found Shot Near Winnipeg

Winnipeg, March 28.—With a bullet wound in the forehead of the body of Homer Large, 27, who came here a few days ago from Milo, Alta., was found in a bush on the outskirts of the city Thursday. Identification was not made until Friday when the man's father came from High Bluff, Man., when the description of the body led him to believe it might be his son.

Deceased had been employed by the Bank of Nova Scotia until the branch to which he was attached to at Queenstown closed recently. He is believed to have a wife and child. An automatic pistol was found clutched in his hand.—Calgary Herald

School Notes

School re-opens on Monday April 4th.

Class Standing for March:

Grade V

1. Erma Richards
2. Dorothy Hesketh
3. Jessie Jones
4. Edith Beagle
5. Florence Royer
6. Max Moss
6. Grace Burger
7. Dale Williams
7. Keith Cochran
8. Albert Riddell
9. Phyllis Cochran
9. Lester Sawyer
10. Issie Royer

Grade VI

1. Loretta Weins
2. Annie Dumka
3. Lorna Richards
4. Doris Miller
5. Genieva Culp
6. Lloyd Irwin
7. Betty Jean Vancil
8. Dougal Oliver
8. Raymond Moss
9. Allen Cochran
10. John Oliver

No Standing—

Earl Salters
Jacob Royer
Thelma Brown

Those whose averages are equal have been given the same standing for the month.

Grades 5 and 6 extend their sincerest sympathy to Thelma Brown who has been absent during March due to illness. They join in wishing her a speedy recovery.

They are also very sorry to hear that Lester Sawyer will not be with them after Easter, as he is moving to Carlsland.

Fred Brown	61
Teacher, H. McCullough.	

The Old and the New

The two models have been showing at the Chateau-de-Ramezay, Montreal, recently in an exhibition of a century of locomotives. Right, is the "Dorchester", operated in 1836 to 1850 on the Champlain and St. Lawrence Railroad between St. John's and La Prairie, Quebec, the first train to run in Canada. Left, is the 2300 type Canadian Pacific Railway locomotive, a model of the great machine that draws modern passenger trains across the Dominion.

Comparison of the two locomotives will bring home the immense development in the past 100 years. The four driving wheels of the "Dorchester" were 48 inches in height. The six driving wheels of the 2300 type locomotive are 75 inches in height. Engine and tender weight of the "Dorchester" was just over 10,000 lbs; of the 2300 it is 643,300 lbs. Tractive force of the "Dorchester" is not given, but it must have been

greatly less than the 45,000 lbs of the Canadian Pacific engine. Engine and tender of both locomotives had respectively eight wheels and twenty wheels. A further indication of the vast spread in operation values between the old and the new is seen in the figures of the latest and most powerful Canadian Pacific engine, the "3000" type, capable of pulling a freight train of 150 cars, or over a mile in length.

A Time-Saver When Time Is Money

**John Deere-Van Brunt
Pony Press Grain Drill**
Furnished with Pulverizer-Packer
—or Tongue Truck

Here is the new John Deere-Van Brunt seeding outfit that is making it possible for one man to do a once-over job of plowing, pulverizing, seeding and covering. It is built to do a good seeding job while working directly behind your John Deere three-bottom tractor plow.

The complete outfit consists of the well-known John Deere-Van Brunt Low Down Press Drill and a special pulverizer-packer attachment which runs ahead of the drill, crushing the lumps and removing air spaces just before the seed is deposited.

The pulverizer-packer attachment takes the place of the regular tongue truck on the John Deere-Van Brunt Pony Press Drill. It is either furnished as an extra, or as a part of the complete machine.

You can turn short corners with this outfit; pulverizer and drill always follow plow. There is very little side-draft and no added weight on the plow beams as hitch is made direct to plow hitch instead of to main body of plow. The drill is controlled from the seat of the tractor; the gear throw-out attachment permits the driver to throw the drill in or out of gear by simply pulling the rope attached to it.

The drill is built strong, to give long, dependable service. Has the same Adjustable Patented Gate Force Feeds and other features which identify John Deere-Van Brunt drills and insure satisfaction to the user.

We recommend this outfit when it is advisable to plow and seed at the same time.

Come in and get further details.

Isn't It So

A discontented farmer wished, if possible, to trade his farm for a more desirable one, and accordingly listed it with a real estate agency. A few days later he read in a newspaper the advertisement of it prepared by the agency. It described in glowing terms the many charms, comforts, conveniences and advantages of the place. Three times the old farmer read the ad, then he called his wife and had her read it to him. Then he seized the telephone and called up the real estate office. "Say, cancel that ad about my farm," he shouted, "I've decided not to sell it. That's the kind of a place I've been wanting for years, and dog my cats, I didn't know I had it."

If many of us could see our jobs and our lives and our possessions as others see them, perhaps, like the farmer, we shouldn't be so "all fired" anxious to "swap" them for something we fancy would be better.—Chilliwhack Progress

Good Old Days

In "THE GOOD OLD DAYS" that so many love to talk about grandfather walked behind a plow, grandmother sprained her back over a washtub, a visit to town came once a month, homes were dimly lighted by smoky kerosene lamps, mail was secured not oftener than once a week, the neighbors were seen only on Sundays, and then only if you went to church a telegram sent everybody in the house to trembling, the only music was pumped out of a melodeon or listened to when the Swiss bell-ringers came to town, farm wives went insane because of loneliness, a trip of twenty miles was an excursion, to be taken

to a hospital was a disgrace, neighborhood epidemics had to run their course, boys and girls had to drink copious draughts of sassafras tea every spring to thin their blood, boys had to wear their father's cut-down pants, and calico dresses were handed down the female line. And so on and so forth.

Now we have the telephone, the radio, daily mail delivery, automobiles, tractors, combines, riding plows, electric lights and power, bathrooms, movies, airplanes, television, daily newspapers, good and bad magazines, equal suffrage, prohibition, gangsters, paved highways, tariffs, crooners, columnists, crossword puzzles, cutout pictures, and so on and so forth.

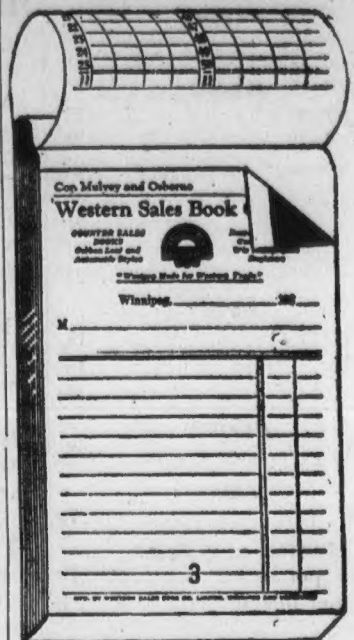

Here and There

The startling discoveries of radium and silver at Great Bear Lake, as well as many other important topics, are to be discussed in the technical sessions of the annual meeting of the Canadian Institute of Mining and Metallurgy in Montreal on April 5, 6 and 7. A part of the proceedings is to be broadcast.

Seventy Atlantic crossings in the ships of one company is the record of C. H. Williams of Toronto who this month reached the three score and ten mark in the Canadian Pacific Duchess of Atholl. He is not yet 45 and has been crossing regularly in Canadian Pacific liners since 1912.

The Governor General, Patron of the Canadian Institute of Mining & Metallurgy, will attend the annual meeting in Montreal on April 5, 6 and 7. It has been arranged that his address to the assembled mining men will be broadcast to all quarters of the Dominion for the benefit of those who cannot attend the meeting.

Choice of 14 tastefully worded Easter greetings, either in English or in the language of the country of destination, are at the disposal of the public, in Canadian Pacific telegraph offices, at a standard rate of one dollar, on and after March 19. The form conveying the message will be decorated with traditional Easter lilies and message can be sent over a wide range of countries throughout Europe.

BOW VALLEY RESOURCE
Arrowwood

July 24 to August 5, 1933 is the new date set for the World's Grain Exhibition and Conference to be held at Regina, Saskatchewan. Railway executives from all over the continent will be among those attending the Exhibition.

Regimental colors, approved by His Majesty the King, and donated by the Hon. Robert Harris, late Chief Justice of Nova Scotia, to the Annapolis Regiment, First Battalion, Annapolis Royal, N.S., reaching their destination recently, having been carried on S.S. Montrose.

A sixteen thousand mile telephone call was put through from Schreiber, Ont., to Sydney, Australia, recently after telephone companies and the Canadian Pacific Railway department of Communications had pooled their resources over a 2000-mile front in Canada.

"They're Off!"—In Old Quebec

The Eleventh annual Eastern International Dog Sled Derby—crowning event of the 1932 Winter Sport season—is scheduled for February 22-24. For those three days, all eyes turn to Quebec City, where each day the fight between the best dog teams in America over a course of 40-odd miles a day is staged. Emil St-Godard, Leonard Seppala, hero of the rush with diphtheria serum to Nome a few years back, are among the contenders, of whom last year there were eleven and this year there will likely be even more. In all, the race covers a distance of 128 miles and the finish is in Quebec itself through crowds of thousands of fans, lining the streets and cheer on the victor.

Handsome cash prizes are awarded, but this year interest is much above the usual. St-Godard who has won the race four times in the last five years, has two legs on the Speed Cup and another win this year will give it to him per-

manently. Seppala has two legs on the Gold Cup for the best conditioned dog and stands to win it permanently this year. Prizes total \$2,150 with a first prize of \$800; second prize, \$600; third prize, \$300; then \$200, \$100, \$75, \$50 and \$25 in that order. In addition there is the Gold Cup for the best conditioned dog and the Speed Cup awarded to the team making the fastest time for a lap during the three days of racing.

The event winds up with the Dog Derby Costume Ball held at the Chateau Frontenac, the

Canadian Pacific's great hotel, on Wednesday, February 24 at which prizes and cups are awarded to the winners.

The picture shows: Upper left, typical huskie, and right Chateau Frontenac, Quebec. Below, centre, last lap of the race and lower right Emil St-Godard and his lead dog, Toby.

Why Not a Daily Mail?

When the new train schedule goes into affect Arrowwood will be five days without mail. Before the trains went through to Blackie, we had a daily mail service, and we see no reason why we cannot have it again. Let all the people from Milo, Queenstown, Shouldice, Arrowwood and Mossleigh petition the department for a daily mail service, and if it is ignored, there is no reason why we cannot establish a daily mail service of our own. Let us all get together and make this district at least as up to date as it once was. Again we say, let's go!

There is the old saying that a dollar saved is a dollar earned, and that is just what we are all trying to do these days—"Save the Dollars." There is no better way to save those dollars than by reducing the number of times you pull your farm machinery over your farm. The answer to this is a "Tiller Combine." Once over and its all over, your plowing, discing, and seeding with all weeds that have started growth 100% killed. We call your attention to one of these complete units set up at our location of business in Arrowwood.

repairs, lubricating oils, greases, tractor fuels and whatever it may be. If you don't see it or haven't mentioned it, just ask for it.

We are still hauling anything, everything, anywhere, everywhere, anytime, and all the time. If you are going to need some coal for the summer place your order early so that you can have it hauled before the spring rush starts.

When you think of tires, think of Firestones.

What ever your spring requirements may be we have them—machinery.
